ROYAL COURT — Here are the king and queen of the 1958 Pickaway County Fair and their attendants. From left the royal court includes Flo Goldschmidt, queen attendant; Queen Judy Hinton; King John Noecker, and king attendant Dwight Beougher. The court was chosen by a panel of judges following interviews last night.

## Judy Hinton, John Noecker Named Fair King and Queen

Miss Judy Hinton, 16, and John Noecker, 16, were last night crowned the 1958 Pickaway County Fair's King and Queen. Last year's winners, Miss Marilyn Barthelmas and Roger Schneider, performed the crowning ceremony.

Miss Flo Goldschmidt and Dwight Beougher were selected as attendants to the king and queen. Miss Goldschmidt is the daughter of Mr. and Mrs. David Goldschmidt, 901 N. Atwater Ave. Beougher is the son of Mr. and Mrs. Judson Beougher, Route 1, Laurelville.

Miss Hinton is the daughter of Mr. and Mrs. Eugene Hinton, Route 2, and Noecker is the son of

Wright Noecker, Route 1, Ashville. Miss Hinton represented the Jackson Livestock Club and Noecker was the representative of the Walnut Wonder Workers.

A total of 17 contestants were entered in the contest. There were nine young ladies clad in afternoon dresses and high heels and eight young men dressed in suits and ties.

THE CONTESTANTS were judged on their appearance, poise, personality and ability to converse. They were the select group left after a July screening committee had cut 16 other entrants from the competition.

To qualify for the contest the contestants had to be single and an active member of a qualifying youth organization. The contestants introduced themselves as they were called to the stage.

After the introductions they were personally interviewed by the judges. The talent show alternated with the King and Queen contest. Judges were Judge William D. Radcliff, Williamsport; Mrs. Phil Grover, Washington C. H., and J. I. Smith III.

The King and Queen will reign over the remaining activities of the county fair. The Queen will next year compete in the Ohio Queen contest to be held at the Ohio State Fair. If she is unable to attend this function due to marriage or illness an alternate will go in her place.

## Fair Sidelights

The Pickaway County Chapter of the American Red Cross Booth is located in front of the southern entrance of the coliseum. Cooperating with the Red Cross are Debaugh Funeral Home with an ambulance and a Circleville Fire Department truck.

Nurses manning the booth yesterday were Mrs. Norma Drenan, Miss Beverly Southward, Mrs. Gertrude Seymour, Mrs. James Lewis and Mrs. Byron Gulick.

Four persons were treated and released at the opening day of the fair. They included Bob Christy, who received a punctured finger; Freddie Moore, cut finger on the right hand; Michael Rittinger, right thumb nail torn off; and Ronnie Majors, small cut over his left eye.

Be sure to visit the Culligan Soft Water Service Display in the coliseum. It is called the "Mystery Faucet" and has a continuous stream of water running from a faucet high in the air to a tub setting on the floor.

This ingenious bit of advertising has everyone sticking their hand in the water to see if it is real because the faucet above is hanging in thin air.

The trick is a clear plastic tube that runs from the tub of water on the floor. Water is pumped up through the pipe and overflows at the top, tumbling to the floor. The top of the pipe is inside the faucet, giving the illusion that water is actually coming out of the faucet.

The Tustin brothers, J. Russell and George W., have brought a bit of the old days back to the fair with the exhibit of two antique genuine steam threshers.

The threshers are located on the top of the fairground's hill. The oldest thresher is a 1919 Frick. The other is a 1922 Minneapolis. The Frick is an 18 horse and the Minneapolis is a 20 horse.

J. Russell, 73, Columbus, and George W., 65, Ashville, are both old hands at threshing. Russell started when he was 12 years old and George started at about the same age.

They operated threshers until the machines became obsolete

# SHERM'S OUSTER DENIED

## New Demands Sounded for Adams' Scalp

NEWPORT, R.I. (AP) — The summer White House today denied a published report that Sherman Adams, target of hot fire in the Bernard Goldfine case, has resigned as President Eisenhower's chief aide.

"It is just not true," press secretary James C. Hagerty said in comment on a resignation story in the Laconia (N. H.) Evening Citizen.

"There has been no resignation in any shape, form or manner submitted by Gov. Adams," Hagerty added.

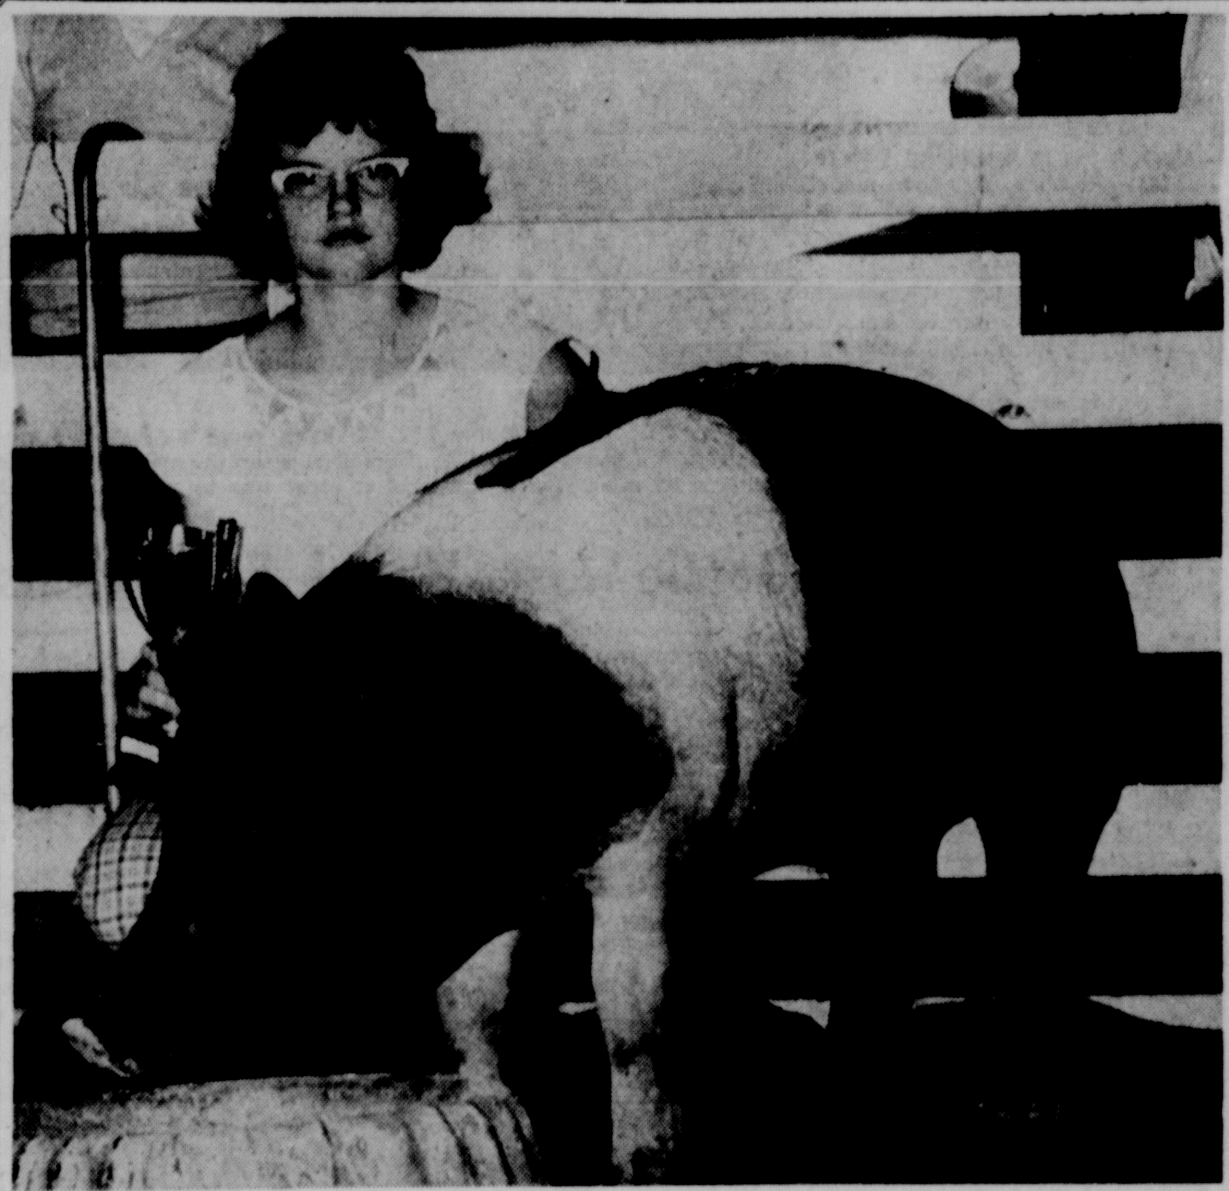

The Laconia Citizen story said its information came "from a Washington officeholder, quite friendly to Gov. Adams" who asked that his identity not be disclosed.

The Hagerty denial came against the background of the Republican political disaster in the Maine elections Monday. There had been reports in Washington and elsewhere that Adams will leave soon as Eisenhower's chief aide because GOP candidates regarded him as a major political liability.

The controversy over Adams flared last June when House committee investigators brought out that the wiry, white-haired presidential aide had accepted costly gifts and favors from Goldfine at a time when the Boston industrialist was in trouble before government regulatory agencies.

Figuring among the gifts and favors was a vicuna coat, an oriental rug and payment of about

GRAND CHAMPION MARKET HOG AND OWNER — Janet Haughn, 16, Route 2, Ashville, is shown with her prize-winning 190-pound Hampshire market hog. It was judged grand champion of the Pickaway County Junior Fair yesterday, a victor over 132 other market hogs. It will be for sale at Friday's auction and should bring a premium price.

## Janet Haughn Has Champ Hog

Janet Haughn, 16, daughter of Mrs. Ralph Haughn, Route 2, Ashville, yesterday won top honors with her grand champion market hog.

Janet, a student at Scioto High School and a member of the Scioto Up and Comin' 4-H Club first won top 4-H honors, then

copped the junior fair prize in competition with the best FFA hog.

The 190-pound Hampshire hog was judged the best in the show by Dr. Richard Wilson, of the Ohio State University, College of agriculture, animal science department.

Her hog will go on sale Friday during the junior fair auction. The sleek pig should bring a premium price for Janet.

Reserve champion market hog was shown by little 10-year-old Joann Courtwright a member of the Duval Go-Getters. It won the 200-220 pound class, while Larry Pontius' heavyweight hog topped that category and also won its owner a prize for the best animal by a first year club member.

TOP PRIZE for best pen of three was won by Marty Young, Duval Go-Getters, owner of last

year's grand champion market hog

No. 1 sow and litter was shown by Mike Eckle, New Holland P & F. Winners of breed competition were Larry Martin, Perry Twp. Junior Livestock, Hampshire; Marty Young, Duval, Duroc; Jimmy Graves, Perry Twp. Junior Livestock, Chester White; Delbert Neff, Scioto Up and Comin', Yorkshire senior gilt;

Don Moody, Madison Livewires, Yorkshire junior gilt; Carroll Liston, Future Farmers of Monroe Potted Poland China junior gilt; Paul Morris, Perry Twp. Junior Livestock, Poland China junior gilt; Ned Rader, Duval, Berkshire junior gilt, and Frank Ebenhack, Deercreek Livestock, Landrace junior gilt.

Don Moody, a member of the Madison Livewires, took hog showmanship honors, followed by Duval's Cindy Young.

## Fair Weather Spurs Crowd At '58 Fair

Robert Bower Takes 4-H Sheep Honors Today

Promise of more fair weather gave a shot in the arm to Pickaway County fairgoers again today.

Yesterday's opening session was a huge success, according to fair manager William Cook. He said there were more people at the fair than any first day in memory — an estimate of about 4,500 persons.

Last night's talent show and king and queen competition drew hundreds and "it made money" according to Cook.

Today's big events include judging of open class beef, harness racing at 2 p. m., a sheep fitting demonstration at 2 p. m. plus a 13-band program at 7:30 p. m. tonight at the grandstand.

Shortly before noon today Robert Bower, 14, son of Mr. and Mrs. Robert E. Bower, Route 1, Kings-ton, swept nearly all honors in the 4-H sheep show.

His three Southdown lambs placed first in light, middleweight and heavyweight market lamb classes, and then he won junior fair grand champion honors with the heavyweight lamb.

HE WAS a virtual cinch to win the pen-of-three title with his three prize animals. Incidentally, he had the grand champion market lamb last year also.

The weather was threatening early today, but sun broke through at about 11 a. m. and it promised to be another fine fair day. The forecast is for clearing and cooler tonight. Thursday will be fair and cool—ideal fair weather.

On the schedule for tomorrow's fair is 4-H beef judging, the open class dairy show, a bait casting contest, 4-H western saddle horse and equitation class in front of the grandstand at 3 p. m., home economics revue at 7 p. m., harness racing at 8 p. m. and a square dance at 8:30 p. m.

## News Briefs

TAIPEI, Formosa (AP) — Bad weather kept Chinese Nationalist supply ships from trying to reach Quemoy today but didn't stop the Communist bombardment of the offshore island.

It was the second straight day that inclement weather in the Formosa Strait halted movement of ammunition and other supplies under U.S. naval escort to the beleaguered outpost.

COLUMBUS, Ohio (AP) — Dr. Ralph E. Dwork, Ohio's health director, today alerted health commissioners throughout the state to a possible severe Asian flu outbreak this winter.

Last year's epidemic resulted in 607 deaths, believed to be directly or indirectly the result of Asian flu. It reached its peak in the last part of October and early November.

WASHINGTON (AP) — Attorneys for the National Assn. for the Advancement of Colored People told the Supreme Court today that overt public resistance is insufficient cause to nullify federal court desegregation orders.

In a brief filed in advance of Thursday's showdown arguments on the Little Rock school integration case, the lawyers urged the high court to deny the Little Rock School Board any delay in desegregating Central High School.

COLUMBUS, Ohio (AP)—Ohio's 1959 state fair will have a financial officer.

Dr. James R. Hay, director of agriculture, made that announcement today. At the same time he said the resignation of Harry G. Dotson, assistant fair manager, was a closed matter.

CLEVELAND (AP)—The top of the state's Republican ticket for Nov. 4—Gov. C. William O'Neill and Sen. John W. Bricker—helped kickoff a Cuyahoga-Lake County GOP finance committee drive for campaign funds Tuesday night.

Senator Bricker said he appreciated "the necessity of having an adequately financed campaign" and added: "I hope this is one."

## Thugs Get Lost In City's Maze

FORT WORTH, Tex. (AP)—Two years ago the Park Department built a maze of high hedges and invited the public in to "get lost." Few visitors ever enter.

Tuesday, two men robbed a filling station and fled into the maze, chased by a group of officers. The cops couldn't find them.

Races will consist of two heats.

## Ross County Lake Land Purchased

COLUMBUS, Ohio (AP) — The Ohio Division of Wildlife says a 135-acre Ross County lake is a step closer to reality after three land purchase approvals by the Ohio Wildlife Council.

The Council has approved options involving 527 acres costing \$96.10. An additional 143 acres is needed to complete the optioning project at the side of the lake east of Chillicothe.

LULL BEFORE THE STORM — The night before Eddie Fisher and Debbie Reynolds announced in Hollywood, "We are having a misunderstanding (over Elizabeth Taylor), and we hope to work it out," Elizabeth and Eddie were photographed riding in a car in New York (above) with Eva Marie Saint (center). The maritane trouble followed Fisher's three-day date spurge with Miss Taylor in Manhattan. Elizabeth and Eddie flew home to Hollywood in different planes.

## Liz-Eddie-Debbie Triangle Like Keystone Kops Comedy

HOLLYWOOD (AP) — The Elizabeth Taylor-Eddie Fisher-Debbie Reynolds triangle today had as many angles — and chases — as a Keystone Kops comedy.

"We've had a misunderstanding," announced Eddie and Debbie the onetime Hollywood ideal couple.

Two weeks ago Eddie went to New York on business about his forthcoming television show. He planned to stay only a week and told Debbie so.

She was at the airport at 6:30 a.m. one day last week but Eddie never showed. He didn't arrive until Tuesday, a week later.

During that extra week in New York, he and Liz, old friends, had night club dates. These were reported in headlines read by Debbie, who said she was shocked.

Liz was in New York en route to a vacation on the French Riviera. But she returned to Los Angeles Tuesday night. Asked why she didn't go to Europe, she answered: "I missed my plane."

As she arrived in Los Angeles, a TWA station wagon met her at the plane's gangway and sped her 30 yards to a waiting limousine driven by Kurt Frings, her agent.

Reporters and photographers followed the couple through rush-hour traffic to Frings' office in Beverly Hills.

Frings drove into his parking lot, made a quick U turn and headed for the Beverly Hills Hotel. There he dropped Liz, who was carrying a tiny Yorkshire terrier.

She strode through the lobby, through a room where a party was being given by Carmen Figueroa, a Mexico City publisher, and out a back door. Where she went then is unknown.

When Fisher's plane landed Tuesday morning, he went to Pal Joey Forman's apartment.

Several hours later, Forman, a comedian, drove up to the Fishers' Holmby Hills home in his car. Five minutes later Fisher arrived in a taxicab.

More hours later, Eddie and Debbie climbed over a back fence, got into another waiting cab and sped to her doctor.

"She's nervous about something," Fisher later told a reporter. Eddie, still unshaven since he left New York the night before, told reporters: "I do not love Miss Taylor and she does not love me."

Tuesday night, Fisher and Forman drove away from Eddie's house in Joey's convertible. They said they were going to the NBC studios. Instead they drove to Forman's apartment, stayed five minutes and left for the Beverly Wilshire Hotel.

Forman and Eddie strolled through the lobby. Fisher went out a side door into a waiting car and sped away once more.

Meanwhile, a press agent said at the Fisher house that Debbie had fixated lima bean soup, Eddie's favorite dish, for supper.

Did he eat it? Who was in that waiting car by the Beverly Wilshire Hotel? Who knows?

## Deputy Aids In Take-Off

Deputy Sheriff Charles Felkey today witnessed an unusual take-off by an airplane.

Deputy Felkey was called to Ross County this morning to assist in helping a U. S. Navy interceptor take off from Route 23. The plane had made a forced landing in Ross County several days ago.

Navy officers decided that the plane probably could get off the ground on a straight stretch of ground just south of the Pickaway Ross County line.

## Columbus Laundry Fire Showers Area

COLUMBUS, Ohio (AP)—A \$150,000 laundry fire showered sparks over the downtown business district late Tuesday.

The blaze at the New Method Laundry was under control an hour after the first alarm was sounded. No one was injured.

The fire, centered in the rear of the second and third floors of the three-story brick building, sent flames leaping 100 feet into the air.

Laundry employees said the third floor was used for the marking of laundry which then is sent to the second floor. The third floor roof in the rear was destroyed and part of the second floor collapsed. Flames also reached the first floor.

## U.S. Envoy Colled Home

KARACHI, Pakistan (AP)—U.S. Ambassador James Langley left Tuesday night for Washington after being called home by the State Department for consultation. Pakistan opposition parties have stepped up anti-Western attacks.

## British Pelt Iceland Ship With Haddock

LONDON (AP)—The little Icelandic gunboat Odinn went frisking through the British trawler fleet off Iceland Tuesday night and got a bash in the bow and a pelting of fish for its pains.

Skipper Frank Padley of the 486-ton trawler King Sol radioed his owners: "I saw the gunboat Odinn (a 72-tonner) coming up from aft so I went full astern into him and made a right nice mark on his bow."

Padley said the Odinn's crew tried to board him and fouled his nets. He reported getting the gunboat's grappling irons.

The Admiralty said the Odinn then went alongside the trawler Loch Fleet and bombarded its crew with dried cod. The British fired back with haddock.

Undaunted, the Odinn went alongside the Aston Villa. That trawler's first mate, Albert Brown directed a stream from a hose through a porthole on the gunboat's bridge and the Odinn sheered off.

Iceland proclaimed a ban on foreign fishing boats within 12 miles of its shores effective Sept. 1. Some 60 British trawlers under protection of frigates defied the ban to continue casting nets in their traditional fishing grounds.

Icelandic gunboats have tried to arrest various of the trawlers but so far the frigates have protected them. About 30 of the fishing boats are reported still inside the 12-mile zone, although the catch is reported poor.

## Pope Asks Data On Defective Babies

VATICAN CITY (AP)—Pope Pius XII has urged publicity for modern medical knowledge about heredity factors producing defective children so couples can "put themselves on guard against terrible accidents." He suggests the creation of "services of information and consultation" to give advice to prospective parents.

The Pope emphasized in a speech to delegates of the International Congress of Blood Transfusion that such efforts to avoid defective children do not violate

## Stock Mart Irregular in Trading Today

NEW YORK (AP)—Shipbuilding stocks and selected issues made gains in an irregular stock market early this afternoon. Trading was fairly active.

Gains and losses of leading issues went from fractions to about a point.

The market was consolidating its gains after Tuesday's vigorous approach toward the record 1956 highs. Wall Street experts said.

Shipbuilding issues made gains following news of U.S. Navy plans to contract for 968 million dollars of contracts for shipbuilding in the current fiscal year.

Some of the high-quality stocks which have made big strides lately were nipped by profit taking. The industrial sector was slightly lower but rails managed a slight edge to the upside.

Early afternoon turnover slackened to a rate about a million shares lower than Tuesday's 3,480,000-share total.

Bath Iron Works held the better of a two-point rise on the shipbuilding news.

Eastman Kodak dropped about two and Goodyear more than a point.

High-priced International Business Machines, however, advanced about three points, making a high for the year. Du Pont added a point.

American Smelting and Louisville & Nashville were off about a point each.

Small gains were made by U.S. Steel, Ford, Chrysler, Anaconda, U.S. Rubber, Woolworth, United Aircraft, Chesapeake & Ohio and Santa Fe. General Dynamics was up about a point.

Long-range U.S. government bonds settled to new lows for the year.

Roman Catholic Church prohibitions against birth control.

## Ike To Give Far East Crisis Report

NEWPORT, R.I. (AP)—President Eisenhower will make a major nationwide television-radio address from Washington Thursday night on the Far East crisis.

Announcing this today, White House press secretary James C. Hagerty refused to say whether any emergency development in the Formosa Strait situation had prompted Eisenhower's decision to go on the air.

Eisenhower will speak from his White House office in Washington tomorrow evening for half an hour starting at 9 p.m., EST.

Network details had not been worked out yet when Hagerty made his announcement, but there will be both "live" and delayed broadcasts.

While Eisenhower will interrupt his vacation to return to Washington, he does not plan to end it, Hagerty said. He added that the President expects to return to the Newport summer White House Friday morning.

## Cord Strangles Tot

COLUMBUS, Ohio (AP)—A 14-month-old girl apparently strangled to death Tuesday when she fell from a high chair and a cord twisted around her neck.

Police said Sarah Elizabeth Hafer was found unconscious by her mother, Mary Hafer, 36, who had been in the back yard.

In this connection, high GOP officials were reported making a nationwide check on party reaction to the defeat of Republican candidates for the Senate, governorship and two House seats in Maine.

If this survey shows that a substantial number of candidates, state chairmen, finance committeemen and others believe the Adams-Payne association with Goldfine played an important part in the Maine results, Adams is likely to be confronted with this when he returns from a New England fishing trip.

## Ohio Farmers Battling Birds

### 20,000 Rounds Fired By Sandusky Guns

SANDUSKY, Ohio (AP)—Deadly warfare is being fought these days by Ohio farmers armed with shotguns and rifles. They're battling the ruinous redwing blackbird for the fall corn crop—and the blackbirds are winning.

To protect 200 acres of corn on the Sandusky County farm of Herb Wright near Vickery an estimated 20,000 rounds of ammunition were fired. Wright, his son, Herb Jr., and a neighbor have manned lookout towers bordering the cornfield for the past month.

Although expensive, Wright claims his method is effective. Other methods have failed: A research operation—called Bye Bye Blackbird—is headed by Dr. Maurice L. Filtz, professor of zoology at Ohio State University. He has set up headquarters on the shore of Sandusky Bay.

At the end of his first season of intensive research Filtz says he has been unable to find a chink in the redwings' armor.

"It adapts to anything we throw at it," said Filtz glumly.

He estimated the redwings and their cousins, the grackles and cowbirds, may now outnumber the human population of Ohio—close to eight million.

A survey of 555 Ottawa County farms showed 17 per cent of the corn crop was destroyed—at a cost of \$110,000. On one Sandusky County farm Giltz and his aides found 975 damaged ears of corn on 1,000 stalks.

After days of exploding firecrackers, acetylene bombs, and using amplified sounds, the birds remained. Said Giltz:

"As the day wears on they become hungrier, nothing will move them. . . not even rocks. They lose all respect for danger."

## Sgt. George Green Leaves Force After 23 Years Duty

Sgt. George Green, Circleville Policeman for almost 23 years, has been placed on the disability list here.

Sgt. Green, handicapped by poor health the last several months, requested that he be placed on the disability list. The request was approved by the local police pension board.

The veteran officer spent the last several weeks in the hospital as the result of an auto accident. He was released to his home several days ago.

Prior to the accident, Green served here as sergeant of the daytime force. During his many years as an officer, he handled almost every job on the local department.

GREEN is able to recite many unusual and exciting events which happened here during his long tenure of duty. His list of experiences include homicides, robberies and hundreds of normal complaints which must be handled by a policeman.

Sgt. Green's shift to the dis-

brown, spots, sorrels, dapples, bays or blacks.

The Pickaway County Canned Foods Display, exhibited for the first time in many years at the fair, is located in the southeast corner of the coliseum.

The Canners are celebrating Canned Foods Month. Participating in the exhibit are the Winorr Canning Co., Esmeralda Canning Co., and the Crites Canning Co., Ashville.

Yesterday afternoon in the sheep and hog barns there was much varied activity. Youths who were exhibiting yesterday were busy washing down their hogs, brushing and completing general odds and ends before they entered the arena.

Other young boys and girls were sleeping on bales of straw after an early morning of work. Other groups were passing away the time by playing cards.

One busy young man wasn't playing cards though. His Holstein gave birth to a calf yesterday noon and he was nearly beside himself until he got the calf to eat around 6 p. m. last night.

Many parents were assisting their youngsters in attending their animals. Some were discussing how they would get home to do the farm chores, of milking and feeding, and still be back at the fair in time to watch the King and Queen Contest.

Political activity was picking up at the fair opening as candidates of both parties were distributing literature on their merits and talking to all possible voters.

The Right-To-Work booth reported much interest in the proposed legislation of banning union shops and said many people had stopped to find out what the issue was all about.

The judges, Mrs. Don Reihl and Margaret VanVoorhis, for the Fair Homemaking Department stated "the baked goods excelled those at

## Mr. Dresbach Dies Today

### Heart Attack Said Cause of Death

Warner L. Dresbach, 68, of 405 W. Franklin St., died unexpectedly at 8:30 a. m. today.

Mr. Dresbach suffered a heart attack while making a purchase at Goeller's Paint Store, E. Main St.

He was born Mar. 6, 1890, in Hallsville, a son of Gedaliah and Rose Dresbach. He was a longtime employe of the Circleville Oil Co. His wife, Mrs. Myrtle M. Rudisill Dresbach, survives. Other survivors are:

## Police Make Like Tarzan

NEWARK, N.J. (AP)—The call of the wild came Tuesday to Chi-Chi and he answered it.

The call then came to the police. They answered too.

The result was a hectic rooftop chase in the steel and concrete jungle of the downtown town area.

Chi-Chi, a monkey, escaped from a local pet shop.

He started acrobatics on top of a bank building, then entered a coat company, setting some 25 women to screaming. Their squeals apparently confused Chi-Chi, because he soon fell prey to a police net.

## Ternstedt Plant Hurt by Walkout

COLUMBUS, Ohio (AP)—Production at General Motors Ternstedt plant was halted Tuesday night when third shift workers refused to cross picket lines which signaled the start of another wild-cat strike.

Members of Local 969 of the United Auto Workers Union struck the plant last month over grievances in retooling for the 1959 models.

Pickets told reporters the new walkout stems from local issues that have piled up since the Auto Workers contract with General Motors expired last May 29. They said these included production demands, time and work studies and the no contract issue.

The plant, which employs 4,500 workers, manufactures accessories for General Motors vehicles.

# Most Popular Seers Predict Living Cost Cut

**Bumper Crops Hinted  
Background for Dip  
In General Food Tags**

By SAM DAWSON  
AP Business News Analyst  
NEW YORK (AP)—Most cheering of all of today's soothsayers are those who are predicting easier living ahead.

This comes, oddly enough, at the same time so many are talking up industrial recovery and increased consumer spending.

Many persons were perplexed that the cost of living kept rising during the recession when plants were standing idle, production and sales were falling and surpluses, not shortages, were the big problem.

Now with industry all set for a hoped-for rise in activity, the talk is that industrial prices may rise very little if at all, and that in other lines — chiefly foods — the chances are good for better days for the family pocketbook.

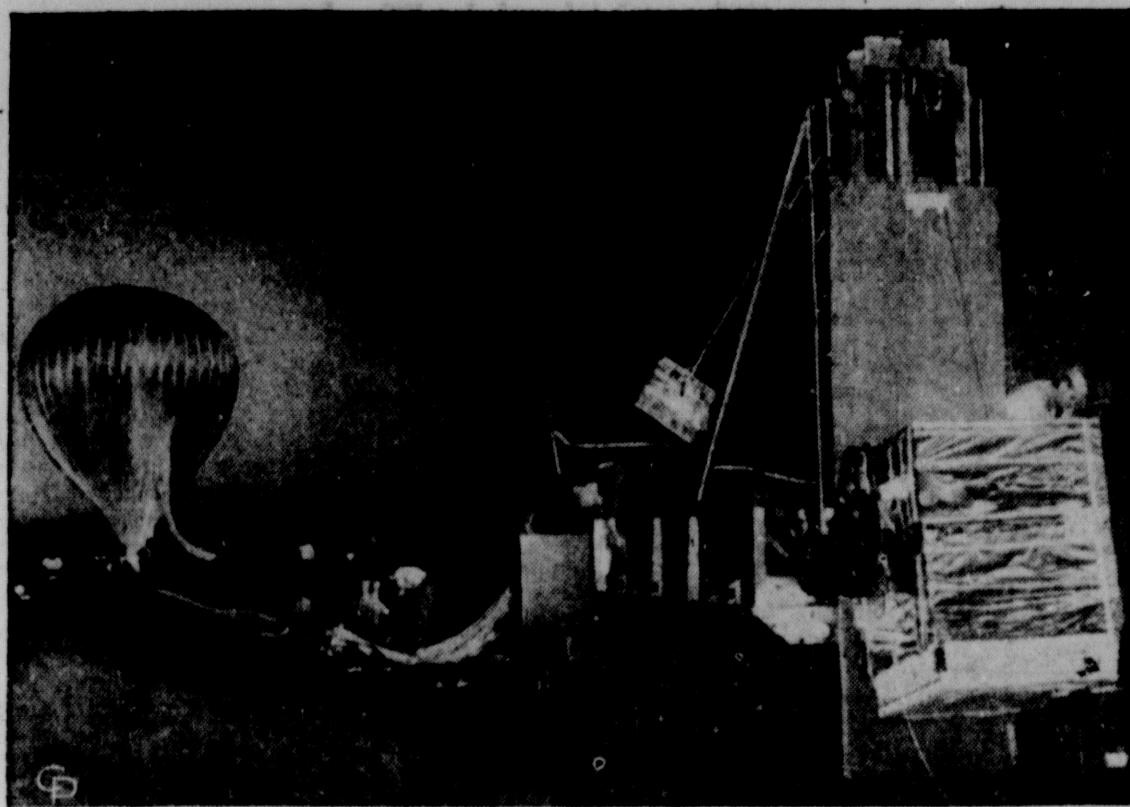

Since food stands high on every one's budget, the report of bumper crops is good news indeed. It means that foodstuffs should ease rather than rise — and, importantly, that an abundance of foodstuffs foretells a future increase in the number of meat animals, and an easing of prices in that vital part of the cost of living.

Also, government price supports for some crops are being lowered, along with restrictions on production — a boon to city dwellers at least.

There are even signs that the long rise in the cost of services may be slowing down — in most fields, that is, except transportation.

The case for hope that a pickup in industrial activity and the accompanying rise in personal incomes may not kick off much of a rise in industrial materials or even in manufacturing end products is based on two beliefs:

1. That the recovery will be moderate and slow paced;
2. That the big surpluses still

## Army Aid Is Certain U.S. Fleet To Stay Put

overhanging the market will have to be worked off first and that the excess production capacity in most industries will keep competition keen for some time to come.

It will be a struggle in most plants to hold down rising operating costs, particularly as wage scales continue to fatten. But if competition remains keen, passing along such rising costs in the form of higher prices will be a problem, too.

In time consumers and industry could use up the surpluses and get all the capacity into production. But until then there's hope that the cost of living can be held in line.

## Pen Escapee Captured in Dayton Fight

DAYTON, Ohio (AP) — A 1955 escapee from the Arkansas State Penitentiary is being held in the city jail here today. He was captured Tuesday in a gun battle through a residential section with four FBI agents.

During the pursuit the escapee, Gordon Henderson, 36, of Jeff, Ky., grabbed 14-year-old Bob Himes for a shield but the boy twisted free and was not injured.

E. D. Mason, FBI agent for the area, said he and the other agents, acting on a tip spotted Henderson and Mrs. Beulah Bridgeforth, 36, of St. Louis, Mo., in a car.

Mason said they chased the couple for nearly a mile before the two jumped from their car and ran in opposite directions.

The foot chase went several blocks. During that time Henderson was shot in the hand, and

grabbed the Himes boy, who was walking home from school. When cornered Henderson threatened to shoot himself but agents talked him out of it.

Later, Henderson was arraigned before U. S. Commissioner Robert Snell on charges of assaulting a federal law officer with a deadly weapon and unlawful flight to avoid confinement for robbery. He escaped Oct. 13, 1955. Bond was set at \$50,000.

Mrs. Bridgeforth, was charged with harboring a felon. Police said she was also sought by the FBI for questioning in Henderson's escape. Her bond was set at \$20,000.

## A-Ban Talks Just Propaganda?

There are anxious huddles among the experts at Washington every time Russia issues a new pronouncement of concern to the United States. What does it really mean?

The words are there, all right, but Russia is sure to claim later that some of them didn't mean what they seemed to mean. Which are the boobytrapped words this time? And what is written between the lines?

The Nazis, seizing upon an obscure implication in a Stalin speech in early 1939, shrewdly followed it up to arrange the Hitler-Stalin pact of August, 1939.

Does the latest communication include another obscure implication that Moscow really wants a deal? Or are there signs that what she wants is not to deal, but to refuse in such a way that America shall appear to be rejecting peace?

Questions like this are raised by Premier Khrushchev's "agreement" to enter into talks looking toward the conclusion of an agreement to suspend tests of nuclear

weapons. Khrushchev's remarks were so mixed with qualifications, suspicions, and truculence that it is harder than usual to guess what he is up to.

The Western powers had offered to start talks on a test suspension agreement on October 31, and to suspend testing for one year thereafter provided Russia would do the same. But now Khrushchev appears to be saying that Russia will not do the same.

The West, he says, is searching for all sorts of loopholes to evade a test-suspension agreement; it is trying to impose reservations and obviously artificial conditions. It is even dragging in the issue of disarmament!

If he was convinced in advance that the proposed talks would be useless, why did Khrushchev agree to them? Does he merely want the talks as a propaganda session in which the communists will simultaneously block an agreement and attempt to foist the blame on the West.

That, at the moment, seems the likeliest interpretation.

## Iceland Is Vital Base

The politics of it holds the greater threat to Western security, but what are the economics of the fisheries off Iceland and Britain and other nations?

It seems absurd that anything resembling an international feud should arise over the fish that Iceland must sell abroad as her main exportable resource. It's not common practice for a businessman to alienate his best customer — as Iceland seems to be doing.

Whether there are enough fish in Icelandic waters for the trawler fleets of both nations, within the 12-mile line, is one important consideration, though not necessarily the most important one. That is a biological question well within the scope of definite answer.

Regardless of that answer, does Iceland stand to profit from higher fish prices based on an induced scarcity of fish taken

from surrounding waters? This whole economic question needs the spotlight first — if only to put it where it belongs, subordinate to the issue of Iceland's importance to Western defense.

Iceland is a vital footing for the North Atlantic Treaty Organization vis-a-vis Soviet Russia in the Arctic and sub-Arctic latitudes. The United States has a military base it counts on keeping despite the rumblings of "Americans go home" from the present left-wing Icelandic government.

## Thoughts on 'After 45'

By Hal Boyle

NEW YORK (AP)—Some young uncaught horse thief in the office recently pasted a motto on my typewriter.

It says: "God has a place for the older person whose heart has remained sweet and strong."

I had to laugh. The young fellow who pasted this message was gently twitting me about my advanced age. The newspaper game has always been regarded as a young man's game — just as war is. Anyone over 45 in it gradually assumes the status of a dinosaur, and is often asked questions such as, "What was life really like in the old days?"

This is always a bit unnerving to one who—let's face it—can summon up a clearer mental picture of Clara Bow than of Brigitte Bardot.

At 40, I would have bitterly resented being teasingly classified as an "older person." But after 45 one accepts it, not as a taunt, but an accolade.

The envy of youth one has at 40

gives way to one of restrained pity. One feels sorry for the very young. After all, what have they really done to deserve all the turbulent woes that go with lack of age?

One gets a trifle smug after 45. One has solved so many of life's more pressing problems.

At 25 you wonder what is happening to your hair. After 45, you know what happened to it. It went.

At 25, if you have a beautiful wife, you are always afraid some handsome fellow will steal her away. After 45, you know you couldn't even pay anybody to kidnap her. She's safely yours.

At 25, you fret and fume over whether you'll be promoted to a better job. After 45, you have no such worries. You know the boss isn't likely either to give you much more money or much more responsibility—unless he suddenly goes senile himself.

At 25, your children are a cramping burden, who keep you from doing things you'd like to do. After

45, doing things for your grandchildren becomes one of life's greatest pleasures. For some reason a man's grandchildren always seem smarter and better than his children did.

At 25, a fellow breaks his back buying life insurance. After 45, you enjoy sitting back and enjoying your heirs, who must wait to collect.

At 25, you begin paying the government through the nose. After 45, you begin looking forward to the day when the government will be forced to start dishing some of it back.

At 25, you are confused and don't know where you're going. After 45, you know at least where you've been—and don't have to go again.

Yes, indeed, God does have "a place for the older person whose heart has remained sweet and strong." It can be a right nice place—and any young fellow, if he holds on long enough and plays his cards right, can get there too.

## Entire U.S. Segregated

By George Sokolsky

Segregation is as serious a problem in the Northern cities as it is in the South, but it is of a different nature. In the North, segregation occurs by both a voluntary and involuntary process, namely, that many groups either prefer to live close to each other or do so through circumstances beyond their control.

Half a century ago, most Jews in North York lived on the East Side and in Chicago on the West Side. Naturally their children went to a neighborhood public school. Chinese in New York or San Francisco lived in Chinatown because in those days they preferred it that way.

Arabic-speaking people in New York live in a section of Brooklyn, just as the early Italian immigrants settled in the general vicinity of Old St. Peter's Cathedral and the Negroes began moving into Harlem which they took over completely, as they took over areas in other cities.

Sometimes ghettos are voluntary and have to do with the incidence of particular houses of worship, or butcher shops or groceries. Immigrants usually do not know English and have to live where the language they do know is spoken.

Negroes find it difficult to break through ghetto barriers because of the color bar. Thus, certain public schools become 100 per cent Negro, as though the children were segregated by law. For some unaccountable reason among the Northern liberals who are opposed to segregation, the teachers in such schools are often 100 per cent Negro.

The Board of Education of New York City has acknowledged a fact which no Northern city could any longer disclaim and has appointed a Commission on Integration, which, as such commissions do, has issued a report in which appears the following:

"... To begin with, the segregated school child is the product of the segregated home in the segregated neighborhood which, partly because of its segregation is economically, socially, and culturally underprivileged. Hence, to make up for these disadvantages, the minority child needs more and better education, more individual attention, more psychological and vocational guidance."

This is not quite understandable. Does this mean that he is to have better schools than the white child? Does this mean that the Negro is not to be put on an equal basis with the white child, but that the white child is to be discriminated against? Is the immigrant Italian or the refugee Hungarian or the lowly Chinese child not to have the advantages of a Negro or Puerto Rican child?

For purposes of confusion, Negro and Puerto Rican schools are designated as X schools. These schools are to be treated separately and distinctly, which in simple English means that

they remain segregated even though an attempt is made to make them superior. The report states partly in italics:

"To raise the level of academic achievement in the X schools the sub-commission recommends the development by the Superintendent of Schools and his professional staff of an intensive educational program aimed at the implementation of the recommendations by the sub-commission on Guidance, Educational Stimulation and Placement concerning the identification, stimulation and guidance of students with superior intellectual potentialities; also the recommendations of the sub-commission on Community Relations and Information for the education of parents and the promotion of school-community understanding."

Gov. Orval Faubus of Arkansas would probably be willing to settle for such a program, which clearly means that the segregated school continues (X schools) for Negroes and Puerto Ricans but these schools are to be superior to those for white children.

The Commission further recommends:

"... that the Board make a deliberate effort to recruit non-white and Spanish-speaking personnel for guidance services."

Why not also recruit Italian-speaking, Arabic-speaking, Yiddish-speaking, Hungarian-speaking personnel in the schools? About 50 nationalities live in a city like New York; probably fewer in Chicago, Philadelphia or Los Angeles. But the problem is everywhere the same, namely, that newer immigrants do not speak English and therefore there is an hiatus

"Psychic phenomenon, nonsense! I say YOU threw it!"

## Try and Stop Me

By BENNETT CERF

NO LESS THAN 1,200 published works are credited to the great French author, Alexandre Dumas. It is obvious that he could not have written them all without assistance, and it is known, in fact, that he employed no fewer than a dozen "ghost writers." His "fiction factory" remains one of the wonders of literature.

Most talented of Dumas' "collaborators" was Auguste Maquet, who projected and in part wrote the immortal "The Three Musketeers." It was the genius of Dumas, however, that made the book a masterpiece.

At the height of his career, the great Alexandre is said to have met his son, also a writer, at somebody's dinner party, and to have asked paternally, "Have you read my latest story?"

"No, sir," answered the son. "Have you?"

Constance Collier once advised a young hopeful in the theatre, "My dear, a big star never wears furs—she drags them."

## Expectant Mothers Should

By Herman N. Bundesen, M.D.

Women who have heart disease must be especially careful and alert to possible danger signals during pregnancy. Therefore, even if your heart trouble is very mild, you should be under the care of a doctor throughout the pregnancy and afterward, too.

Naturally, you will need more rest than an expectant mother without heart disease. Make sure you get enough during and after the pregnancy. Sleep at least nine hours every night and take a nap daily.

While the amount of weight you can gain depends upon several factors, as a general rule you should not put on more than 15 to 20 pounds.

It's important to avoid becoming overweight and overtired. It's also important to avoid infection and tight clothing. Don't wear tight girdles, brassieres, garters or other garments that are uncomfortably snug.

Despite this advice, your heart occasionally might become overtaxed. When this happens your

doctor will want to see you immediately.

The American Heart Association lists the following danger signals and recommends that you tell your doctor at once if you:

1. Gain four or more pounds in a week.
  2. Catch a cold or develop a sore throat.
  3. Cough frequently, especially when you first lie down.
  4. Have pain in the joints.
  5. Have a fever.
  6. Vomit.
  7. Have a burning sensation when you pass urine.
  8. Suddenly become short of breath when doing ordinary things around the house, when climbing a few stairs, or when you first lie down. Even healthy women often become breathless with ordinary activity during the late stages of pregnancy. Whether this occurs early or late, if you have heart disease report it to your doctor promptly.
  9. Find that your heart beats faster or you feel the need to take a deep breath while sitting or lying still. Again, this may be a perfectly normal reaction during late pregnancy, but tell your doctor about it anyway.
  10. Have any other symptom that bothers you.

## You're Telling Me!

By HOVI KING  
Central Press Writer

Democratic National Chairman Paul Butler and Republican Chairman Meade ALCORN both say they're against a "dirty campaign." That's the kind in which you don't say anything mean about me.

Butler and ALCORN signed a "code of fair campaign practices" for all candidates. Some candidates are against a dirty campaign and some are up against a dirty campaign.

It's a good thing Butler and ALCORN signed a contract. No politician wants to break his word.

The code is an attempt to raise the "ethical level" of political campaigns. Just on the level would do.

When Butler and ALCORN signed the code, they began interpreting it. It means one man's dirt is another man's loam.

A "code of fair campaign practices" is a kind of political deodorant. It's a cover-up for the offensive.

Butler and ALCORN disagree over whether it's dirty to call Ike a "part-time President." Butler thinks when Ike is not in he's out and ALCORN thinks when Ike is out he's still in.

This problem is not segregated to Arkansas; it can be found in any town you can think of.

## The World Today

By James Marlow

WASHINGTON (AP) — It's no wonder Secretary of State Dulles indicated the United States might make concessions to the Red Chinese if they're good boys. He has problems.

All of them can be telescoped into one big question:

How long can this country go on having crisis after crisis with the Chinese Communists without getting into war over the small Quemoy and Matsu islands near the China mainland?

This time American determination and strength may have chilled the Communists, particularly since they lack a navy, and perhaps lacked atomic bombs and enough planes to take a chance on war.

Next time, with help from the Soviet Union, they may risk the chance. It's a situation which can hardly go on indefinitely.

When the Reds drove Chiang Kai-shek off the mainland—to Formosa, 10 miles across the straits—his retreating troops grabbed Quemoy, three miles off the China coast, and the Matsus, 10 miles off the coast.

This country is pledged by treaty with Chiang to defend Formosa from Red attack. It must do that. But Congress left it to the President to decide whether it was necessary to fight for Quemoy and the Matsus to defend Formosa.

Chiang complicated things for the United States—although Dulles told a news conference Tuesday this country didn't object—by moving a third of his army from Formosa to Quemoy.

That put a tremendous potential obligation on the United States to defend Quemoy. Loss of a third of his army would truly make Chiang a paper tiger on Formosa where he could hardly survive very long anyway without American help.

So, when the Reds bombarded Quemoy and the Matsus, the United States got involved. Were those islands by themselves really necessary for the defense of Formosa? If they were, the President could order a fight to protect them.

Dulles said: "What is involved here is not just two pieces of real estate—Quemoy and Matsu. Obviously, if that was all that was involved, there would be no basis for action on the part of the United States."

That seems to say that by themselves the islands are not

worth defending and are not necessary for Formosa's defense. That raises a nice question all by itself:

Why then did the United States ever let Chiang put so many troops there, creating a situation which might require American intervention and war not only with Red China but perhaps even with the Soviet Union?

The United States took that chance by using units of the 7th Fleet to convoy supplies, particularly ammunition, to Chiang's bombarded forces on Quemoy.

Dulles said what is involved is the whole position of the "free world in the western Pacific." He explained that: "If you fall back from advanced positions and indicate to an aggressor that you have no will to stand, then your position becomes weaker, your allies lose confidence."

But if Chiang hadn't sent his troops to the islands, the Reds could have taken them. Thus Chiang's sending his troops to Quemoy set in motion a whole series of events, actual and possible, which created this situation:

While Quemoy and the Matsus

were not worth defending themselves—if this is a proper interpretation of what Dulles was saying—the United States couldn't yield the islands to the Reds under threat of force.

But so long as Chiang holds those islands, it seems sure there will be a repetition of this crisis which was a repetition—a replica, Dulles called it—of a similar crisis three years ago.

Yet, as time passes and Red Chinese strength grows in weapons and planes, this country may become increasingly unwilling to risk war to defend the small islands.

What's the answer? Dulles indicated concessions might be made to the Reds if they stopped talking about using force to take the islands. What concessions? Maybe this country will persuade Chiang to pull back his troops after a proper interval and let the Reds have Quemoy and the Matsus.

Chiang could hardly refuse if the United States told him that's what it wanted. He's utterly dependent on the United States for his existence.

## Integration Delay Seen Lesser Evil

Wed AD. No. 9: Integration

LITTLE ROCK, Ark. (AP) — The Arkansas Gazette said in an editorial today that there is no alternative to permitting a delay in integration here except the kind of federal enforcement "that would amount to something very like a new Reconstruction."

The newspaper, which won the Pulitzer Prize for its locally un-

popular stand during the integration crisis of last fall, said "no one can doubt that the alternative to delay is chaos in education of a duration no man can now foresee."

Executive Editor Harry S. Ashmore, wrote the editorial, said "this newspaper said in its first comment on the 1954 Supreme Court decision that the great task ahead would be to find a way to prevent serious and sustained damage to the public school system while finding means by which the South would comply with the new public policy—and we have bent our own efforts to that task ahead would be to find a way to prevent serious and sustained damage to the public school system while finding means by which the South would comply with the new public policy — and we have bent our own efforts to that task."

"We, and those who shared our view across the South, have failed. There is no way, for the time being at least, to obtain such compliance without doing serious and perhaps irreparable harm to the system of public education upon which our children, colored no less than white, are dependent."

The editorial said that the effect of a delay this week by the Supreme Court would be to halt desegregation in the resisting states for the foreseeable future. But the Gazette took the position that this would be preferable than the alternative which it said would damage education for all.

## "Mary Haworth's Mail"

DEAR MARY HAWORTH: I have been going with a boy whom I will call Steve for almost two years. We have known each other for almost five years.

His family and I are very good friends and we get along very well. I thought this was just simply wonderful until I read your column of July 16, in which you say of a broken romance—"Grace is probably paying the price of having tried to court Evan under his family's nose." Now I am very worried.

I visit Steve's parents occasionally. He is out of town now, and I never visit them when he is at home. But your remark has me wondering if I am wrong in doing so. I am very fond of Steve and don't want to lose him; so please advise me.

DEAR K.T.: Remember I was discussing somebody else's life situation, not yours. In that other case, Evan had dated Grace for seven years off and on, with marriage never mentioned, the story goes. Also he had broken with her several times, but would weaken and return when she called. His family always liked Grace, his sister said.

At the time my comment was made, Evan was on the brink of marrying a new sweetheart—whom his family hadn't met until after the pair were engaged, with their wedding date set, and plans well advanced by her parents.

As for your alarm, caused by

reading my sentiments in that instance, I am reminded of the saying: "If the shoe fits, put it on." There may be nothing in Grace's misfortune that parallels your courtship of Steve; and if there isn't, don't borrow trouble by imagining things.

M.H.

DEAR MARY HAWORTH: The boy I love is four years my senior; and the harder I try for his friendship, the more he ignores me. I have tried ignoring him too, but it still bothers him at all. He really has me stumped.

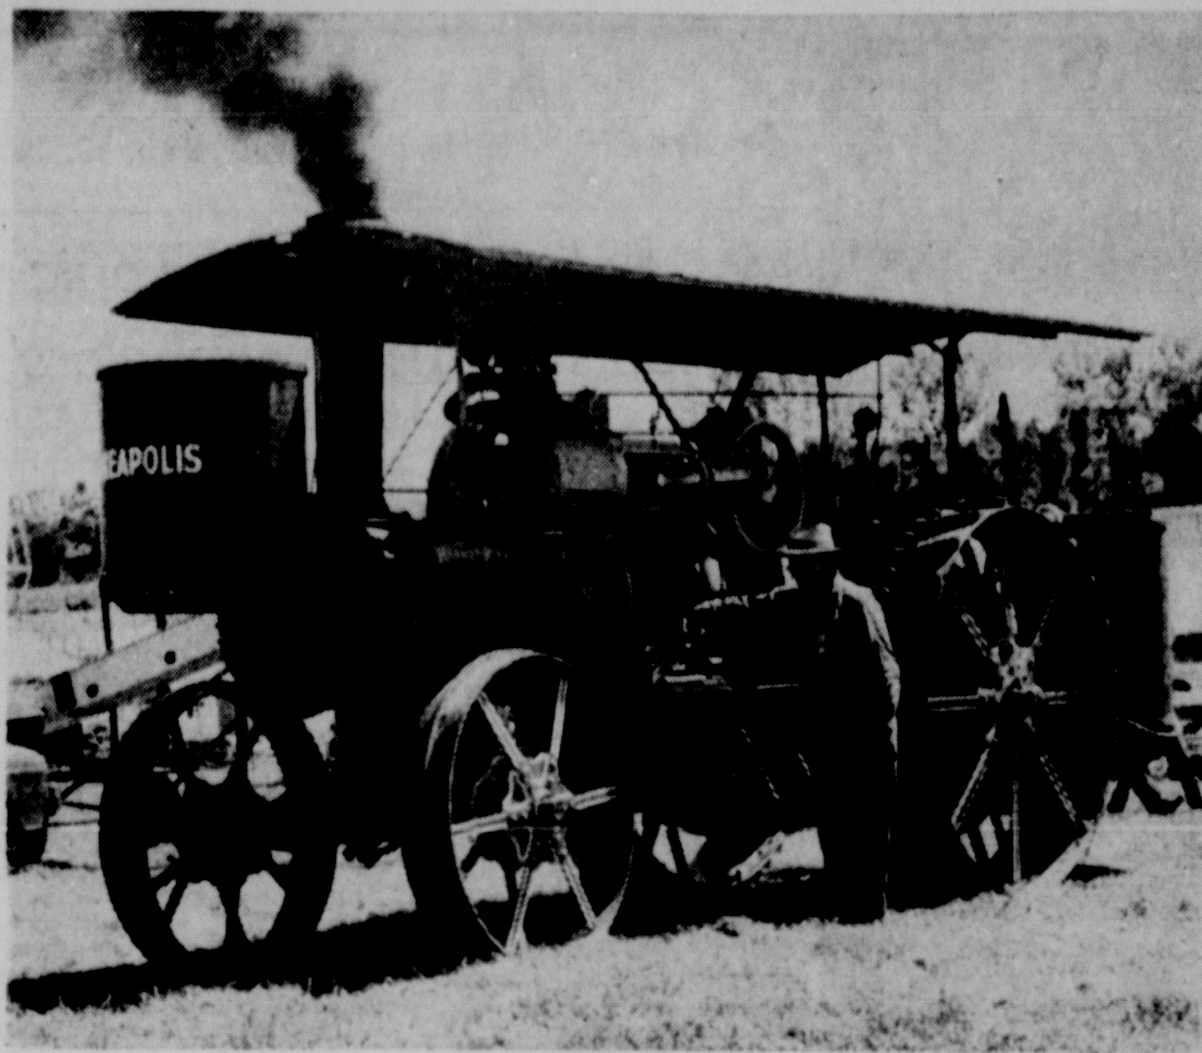

Recently he says "hello," which he didn't use to do. Funny, it just started suddenly. What do you advise? I am losing weight and sleep.

D.A.

DEAR D.A.: Most people pass through an unrequited love or two before they find the real McCoy. By the law of averages, one has to try, and try again, to succeed in life. So keep pitching, in a nice way; and if you lose this round, it still is gain, because you are growing as a person.

M.H.

## Republicans Here Enlarge Central Committee By 10

The Pickaway County Republican Central Committee voted Thursday to enlarge the Republican Executive Committee by 10 members at a meeting held in the local common pleas courtroom.

The 10 members named were William Green, A. D. Pettibone, Mrs. Wilbur Gillespie, Edward Grigg, Lloyd Soung, Milton H. Renick, Larry D. Varble, E. F. Ridlon, Earl Liston and Mrs. James Greenwood.

Final plans for a Buffalo Roast were made. The buffalo was donated by Green, Route 1, Orient, and was supposed to be seen at the Pickaway County Fair.

But trouble developed upon the animal's arrival at the fair. The buffalo refused to budge from the truck in which it was hauled to the fair. William Green Jr., driver of the truck and son of its donator, said the animal was scared by the onlookers and remained in the bed of the truck.

THE BUFFALO was purchased from J. B. Anderson, a professional buffalo raiser north of Mt. Sterling. The huge black animal weighed approximately 1,300 lbs., stood nearly six foot tall and had large curled horns.

It sported an immense face and most of its weight was on the forward portion of its body. The animal

## Pumpkin Show Project Set For Crusaders

Mr. and Mrs. Dale DeLong were hosts for the Crusader's Class of Calvary EUB Church Thursday. Evelyn DeLong was in charge of devotions. She used as her theme "Resources of the Church—The Holy Spirit".

The president, Mrs. Russell Archer, conducted the business meeting. It was decided to decorate a window for the Pumpkin Show. Mrs. Ralph Diltz and Mrs. Archer volunteered to head the committee.

The group is completing plans for an outdoor Christmas Scene for the church yard. They will be life sized figures of the nativity scene.

Special guests were Mrs. Joe Brink and Mrs. Manley Carothers, who participated in the birthday surprise for Dale DeLong.

A birthday cake and home made ice cream were served by the hostess.

## Mrs Poling Presents Topic 'Schools Without Scholars'

Mrs. William Defenbaugh, chairman conducted the business session for the September meeting of Berger Hospital Guild 12, held Monday evening in the home of Mrs. George Husky. Mrs. Robert Schmidt was named to investigate other items which might be sold with the yarn balls which the group is making for sale at the General Guild Bazaar.

For the program the members continued a discussion on the subject of Education begun at an earlier meeting. Mrs. Sterling Poling, Logan Elm District Chairman for the State House Conference on Education, reviewed points raised by John Keats in his recently published book "Schools Without Scholars" and the guild members discussed them as they might or might not apply in the local schools.

Among these were the fact according to Mrs. Keats that in many areas "schoolmen simply do not envision achievement of a high quality of performance in the three R's to be the primary mission of the elementary school. It is one mission to be sure, but in Mr. Yaucho's (Willbur A. Yaucho, "How Good Is Your School") words again, they believe the task of elementary education is to make children unselfish and interested in others."

The group also discussed the ex-

tremes in school programs as to the merits of each as explained by Mr. Keats when he referred to one as training and the other a school which he called Mental Prep about which he said, "It is Mental Prep's notion that the school's first job is to ask each child to think as best he can, and that is accomplished by exposing all children to work in what Mental Prep calls the 'fundamental disciplines' of language, history, geography, mathematics, science, music and art. Mental Prep says these subjects demonstrate different orderly patterns of thinking of importance to everyone."

In regard to vocational training the group discussed the merits of Mr. Keats argument that to justify vocational training, "we would have to prove it includes theory as well as practice in order that some intellectual content—some meaning—will be preserved. It is not enough to know How; one must know Why. We must prove beyond doubt that the vocational course will make the best possible use of the students' best abilities; that nowhere else could they put their school time to better use."

Following the discussion, refreshments were served by the hostess. Mrs. Defenbaugh will be hostess to the group for their next meeting on October 13.

## Child Conservation League Plans Benefit Bridge Oct. 1

The Child Conservation League held a carry-in luncheon in the home of Mrs. J. M. Hedges yesterday. Mrs. Hedges was assisted by Mrs. George Van Camp, Mrs. Paul Routzahn and Mrs. Henry Schroeder.

A business meeting followed wherein the president, Mrs. E. W. Hedges welcomed Mrs. Kenneth Luna as a new member. The major portion of the business meeting was turned over to the Ways and Means chairman, Mrs. Roger May, who outlined the plans and announced the proposed committees for the benefit bridge party which will be held at 8 p. m. October 1 at the Elks.

The committees are as follows: tickets—Mrs. E. Grigg, chairman, and Mrs. E. Denham; prizes—Mrs. G. Van Camp, chairman, and Mrs. H. Schroeder; tallies, place mats, plates and napkins—Mrs. E. Barnhill, chairman, Mrs. L. Goeller and Mrs. Luna.

Publicity—Mrs. W. Yamarick; soft drinks—Mrs. C. Vaughn, chairman, Mrs. P. Routzahn, Mrs. D. Harmon and Mrs. N. Harden; reception—Mrs. E. W. Hedges, chairman, Mrs. D. Orr, Mrs. D. Mitchell and Mrs. E. Ridlon; serving—Mrs. D. Yates, chairman, Mrs. H. Swope, Mrs. C. Schneider, Mrs. R. May, Mrs. D. Mitchell, Mrs. E. Barnhill, Mrs. D. Orr, Mrs. G.

Young, Mrs. H. Schroeder, Mrs. J. Nolen and Mrs. E. Grigg.

Tables—Mrs. W. Ehmling, chairman, Mrs. J. Yunker, Mrs. J. Yost and Mrs. R. Carroll; cups and silver—Mrs. J. H. Hedges, chairman, Mrs. H. Hatcher, Mrs. F. Patrick and Mrs. W. Yamarick; clean-up—Mrs. W. Weldon, chairman, Mrs. W. Rickey, Mrs. H. White and Mrs. J. Carr.

All members are to remember that ticket money must be in by Monday, September 29 to Mrs. Enid Denham either by mail or brought to her personally; and that all the pies and cakes must be at the Elks by 4:30 p. m. October 1 together with cards, ashtrays, a scorepad and pencil for one table of bridge or canasta which ever the case may be.

This is a fund raising benefit for the Lowery Lane Mission which is the major project of the League this year. Members will be selling tickets for this and will also make pies and cakes which will be served that evening. There will be bridge and canasta prizes plus several door prizes.

## Dinner Meet Enjoyed by Guild No. 21

The first business meeting of the fall for Berger Hospital Guild No. 21 was held last night at the Pickaway Country Club with a dinner preceding the meeting. Approximately 15 members attended. Mrs. B. B. Deffenbaugh, newly elected president, was in charge.

Other new officers for the ensuing year are: Mrs. Bishop Hill, vice-president; Mrs. Dwight Weiler, secretary and Mrs. J. H. Hatcher, treasurer.

Mrs. Dorothy Liston was welcomed as a new member to the guild. Plans were made for the next meeting to be held at the home of Mrs. Hatcher, Seyfert Ave., October 13.

Following the meeting, bridge was enjoyed by the members.

## Colorful Accessories

By SUSAN BARDEN

Clever draping tricks with scarves add a dash of color and interest to neutral costumes. This season's scarves rate high because of the straight silhouette and the severely simple bodice treatment of many new dresses. With this new easy, unfitted look, wear your scarf to create a bright, bold touch.

Tie a scarf from a long chain, looping it so it will hang below a

simple jumper neckline, falling well below hips to emphasize the omitted waistline.

Let a scarf fill in a wide-away neckline with color and pattern on a city tweed or woolen.

Fold a scarf into a triangle and drape it diagonally over one shoulder, clipping it high on the other one. You can also use a scarf triangle as a tuck-in for a V-neckline, letting one end hang free to flow over a shoulder.

A GENEROUS SQUARE SCARF is just right for filling in a neckline. It's a foulard with a white, dotted border.

## Medical Mirror

WHAT DOCTORS SAY ABOUT:

- Chills
- Jaw Clicks
- Hormone Creams

Q. Is the temperature going up or down when a person has a chill?

A. It is usually on the way up. During a chill the skin blood vessels contract and skin temperature falls. The person wants more cover because his sensations of temperature depend mostly on skin temperature. When the chill is over the skin vessels dilate. The person's skin becomes warmer and he wants less cover. Body temperature, in the meantime, stays up.

Q. "My jaw clicks when I chew. What should I do?"—C.W.

A. Go right on chewing. The clicks will probably disappear in time.

Q. "I am past 39 and a few telltale wrinkles are beginning to appear. Will hormone face cream help?"—No name.

A. The value of hormone (estrogen) face cream in improving aging skin has not been medically proved or disproved with certainty. In a medical test, 27 women applied estrogen cream to one side of the face and plain cream to the other side. There was no difference in the two sides of the face after daily use of the cream for three months.

Material in MEDICAL MIRROR is based on various scientific publications and does not necessarily reflect the opinion of all doctors. The diagnosis and treatment of disease requires the skill and knowledge which only a physician can apply by personally attending the patient.

### Sleeping Sickness Takes 1,613 Lives

SEOUL, Korea (AP)—A total of 1,613 persons have died in South Korea and Japan from sleeping sickness — encephalitis — but the disease appears on the wane. A Health Ministry spokesman said today the number of South Korean cases had reached 5,158 but that the disease was being checked through combined American and Korean efforts and the approach of cooler fall weather.

A spokesman said medical supplies, including 17,000 drums of insecticide to combat virus-spread-

ing mosquitoes, had been furnished by the United States.

## Mrs. Bass's Apple Pie Judged Best

Mrs. Melvin Bass, S. Scioto St., was the lucky winner of the Apple Pie Contest qualifier yesterday. She was awarded a gift certificate of \$5 from Wards Market.

The apple pies were judged in three categories, appearance, texture and flavor, with a total of 100 points. Judges for the contest were Mrs. Clarence Cunningham and Mrs. Dick Tootle. Although there were only five entries, a crowd gathered to see who today's lucky winner would be. Mrs. Bass will not enter the contest again until the Saturday cook-off when the grand champion will be chosen.

Other prize winners today were: Mrs. Don Miller, Circleville, placing second with a \$4 gift certificate from Pickaway Dairy; Mrs. Harry Bailey, Circleville, third winning a half bushel of apples and Miss Mabel Downs, fourth, ten pounds of sugar.

Mrs. Judson Beougher, Laurelville, was the fifth entry.

Before the judging, Mrs. Lucille Wright introduced the judges and presented a short talk on the contest and rules for entry.

The next contest will be held at 1:30 p. m. today. Persons can enter each day with the daily winner competing in the grand champion cook-off at 4 p. m. on Saturday.

Mrs. Donald Courtright was in charge of today's contest.

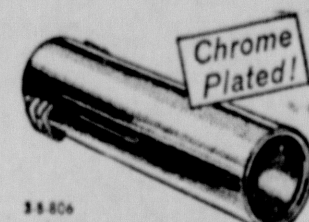

### PTA Meeting Set

The Circleville Parent Teachers first meeting of the 1958-59 school year will be held at 8 p. m. tomorrow in the high school auditorium.

The program will include introduction of new teachers and a tea in the social room after the business session. School Superintendent George Hartman will give an address.

## Stevenson Terms U.S. Foreign Policy As Clumsy, Erratic

NEW YORK (AP)—Adlai E. Stevenson, abroad since June, returned Tuesday with new criticism of U.S. foreign policy.

Stevenson, Democratic candidate for president in 1952 and 1956, said the nation's conduct had been "clumsy, erratic and self-righteous" in recent years.

He termed the Far Eastern situation very dangerous but expressed hope the Chinese Communists would not risk war.

"Fortunately," he said at a news conference "they seem willing to negotiate this time and I hope the talks will proceed promptly."

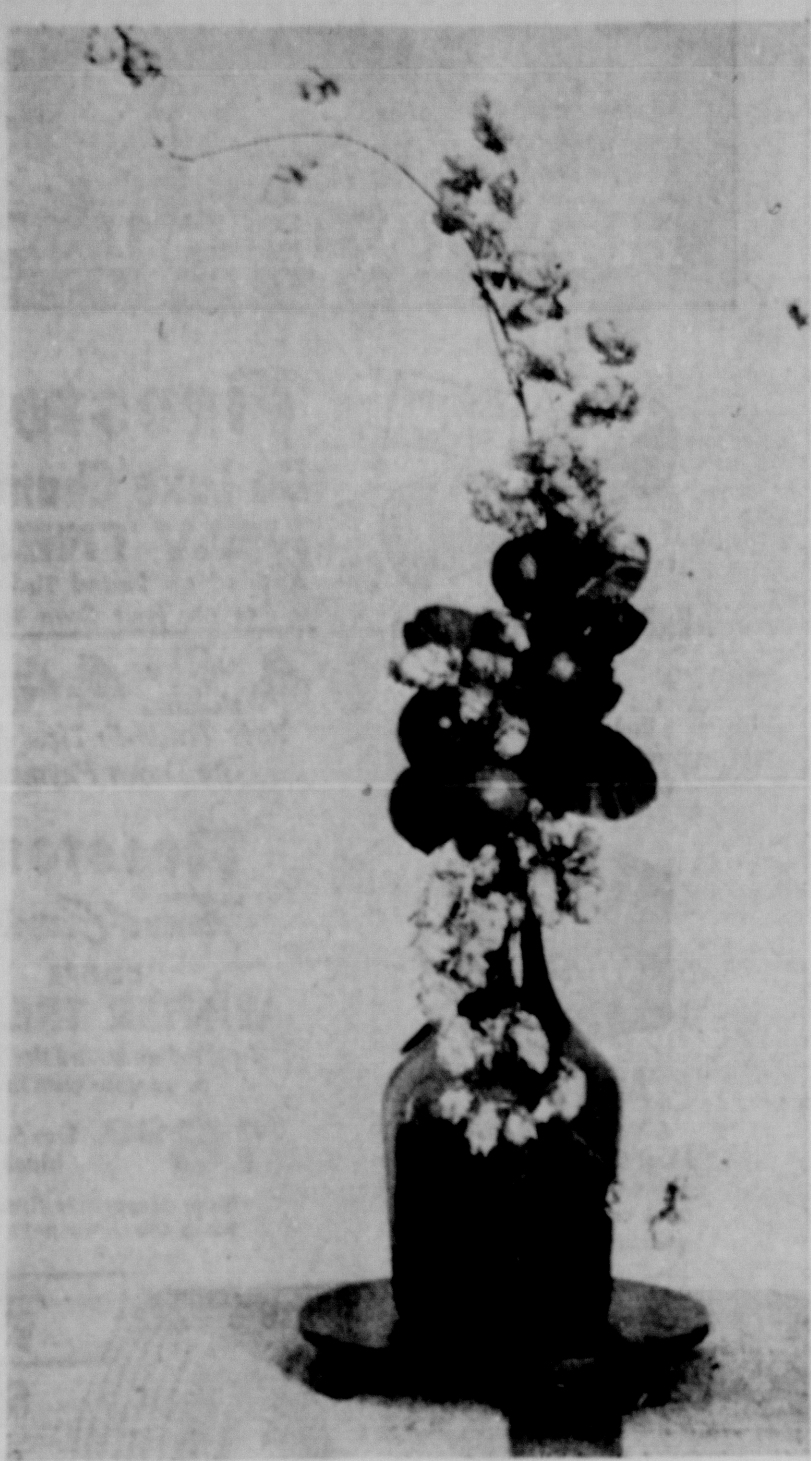

"I suggest that faith in United States strength and determination is the only deterrent to Chinese aspiration in Asia and the defense of Formosa is a solemn United States obligation," he said. "Opinions cannot differ that the United States can and must fulfill its commitments."

## 12 Gls Killed In Alaska Crash

ANCHORAGE, Alaska (AP)—Twelve servicemen were killed Tuesday when an Air Force C47 transport plane carrying 19 persons faltered at 800 feet on takeoff, dropped to the ground and burned.

The accident happened at Elmendorf Air Force Base, a Military Air Transport Service terminal. The twin-engine craft plunged to earth only 100 feet off Elmendorf's main runway.

Eyewitnesses said the C47, on a routine courier flight to isolated posts in the huge northern territory, was making what appeared to be a normal takeoff.

At 800 feet, however, the big craft apparently stalled, veered off to the right and then crashed.

## Star Gives Unusual Reason For Breakup of Marriage

HOLLYWOOD (AP)—Carol O'Hart, back in the movies after two years during which she got married and divorced, gives the most unusual explanation yet for the breakup of a Hollywood marriage.

"I forgot acting and tried too hard to be a wife," she admits. "And that did it."

Several years ago Paramount gave Carol one of the biggest publicity buildups ever given a newcomer. She was pretty enough to once represent Utah in the Miss America contest. She had acting talent.

She cooperated with the publicity department in every way except one. She refused to have her name linked with other actors or date them for premieres or other movieland events. That's publicity routine.

The reason: She was in love with a young engineer named William Strange and went out with him one else. They got married two

years ago and she gave up the screen.

"I did everything a good wife was supposed to do," she said. "I even baked my own bread—and what wife does that these days?"

Then a strange thing happened, her handsome husband gave up engineering and became an actor. His first audition gave him a TV contract and a new name. William Strange became Wayne Preston, star of Warner Bros. "Colt 45" TV series.

"Everything seemed wonderful one day," Carol recalls, "and then the next it wasn't. I don't know what happened—and still don't."

So now she is back in the movies co-starring with Vincent Price in "House on Haunted Hill." Director John Ford wants her for a John Wayne picture "The Horse Soldiers," a break that could give her career the impetus it had when she chucked it to become a housewife.

## Buyers Descending Upon Manhattan

NEW YORK (AP)—Hotel space in mid-Manhattan is at a premium this week. It's harder than ever to get tickets to the more popular Broadway shows. The reason: An unusually heavy invasion of buyers from out-of-town department and specialty stores.

These are the busy folk who visit the big town at certain times of the year to stock up on merchandise—mostly apparel — for the stores they represent back home. Veteran observers in New York's

Industry Still Moving South

Race Tensions Fail To Curb Expansion

NEW YORK (AP)—Race tensions in the South have kept a few Northern companies from locating plants there but have failed to block continued rapid industrialization of Dixie, the Wall Street Journal said today.

In such states as North Carolina, Alabama and Georgia, state development commissions, public utilities, banks and other site promoters claim a greater rate of new plant and equipment spending this year than last, the paper said.

Louisiana is about even with a year ago.

In most other states, the industrialization pace is lagging slightly behind 1957, but the lag generally is smaller than that for the nation as a whole.

Where there is a lag, Southern state officials blame it on recession, not on race.

Race relations is just one of about 70 factors management considers in locating a plant, according to H. McKinley Conway Jr., publisher of the Manufacturers Record, a Southern trade magazine published in Atlanta, Ga.

According to the magazine, new plants being built in 16 Southern states during the first half of this year totaled 688, an improvement over both the 672 in the first half of 1957 and 550 in the 1956 period.

The Journal interviewed dozens of Northern businessmen.

In Little Rock, Ark., which has come to symbolize the South's anti-integration efforts, not a single major new plant has been located in the city's metropolitan area and no land in Little Rock's 1,000-acre industrial district, just outside of town, has been sold since May 1957.

Many Little Rock persons blame "undue" prominence given the local racial problems by the national press.

"They've tarred and feathered our area," complains W. P. Rock, executive director of the Arkansas Industrial Development Commission.

FLOATING COPTER NO SITTING DUCK—A drawing depicts a new Sikorsky HSS-2 helicopter as it hovers over the sea with sonar equipment operating below the surface. Its boat-like hull has been designed to land on water during long missions of submarine detection. Twin turbines will power the amphibious craft to give greater range and endurance in addition to increased capacity. The new helicopter was developed as a Navy project, but may later have potential commercial value.

Ike Asks Cut Of 2 Pct. in U.S. Payroll

WASHINGTON (AP)—Urging a Spartan economy, President Eisenhower is asking for a cut of at least 2 per cent this year in the number of federal employees.

Eisenhower's call for the payroll reduction was contained in a letter sent out Tuesday by Budget Director Maurice Stans to the heads of all agencies and departments.

The President said the cut is needed to offset a 950-million-dollar pay increase granted federal employees this year.

The federal civilian payroll totaled 2,361,432 in July.

In what might be another economy move, the Pentagon deferred tapping the money voted by Congress this year to build four extra

missile-firing atomic submarines.

In summarizing planned ship-building projects during the present fiscal year, Secretary of the Navy Thomas Gates said Tuesday there would be no immediate announcement of plans to build the four subs.

During Senate hearings on the matter, Secretary of Defense McElroy said further testing and development is needed.

Industrial Development Agency Said Ohio Need

CANTON, Ohio (AP)—Michael V. DiSalle, Democratic nominee for governor, told an audience of 200 at a Temple of Israel Men's Club dinner Tuesday night Ohio needs a state department of industrial development. A central organization is needed, DiSalle said, to coordinate efforts of more than 100 separate development groups and keep them from working against one another in trying to attract new industries.

Flivver Plane Pilot To Continue Flight

ROME (AP)—Capt. Charles F. Banfe Jr., whose New York-to-Rome nonstop flight ended Monday in a Corsican vineyard, flew into Rome today in his single-engine plane.

Banfe, an airline pilot from Palo Alto, Calif., said he still planned to complete his solo flight around the world.

Fuel line trouble forced him to make an emergency landing in the vineyard.

City Dads Subpoenaed To Council Meeting

WEST SALEM, Ohio (AP)—West Salem Mayor William F. Taylor is doing something about absenteeism at City Council.

He issued subpoenas for all councilmen for a meeting Friday night after two successive meetings failed to produce a quorum to act on important city business.

Atlanta News

The Atlanta WSCS officers entertained the society members at the church on Friday evening, with a Mystery Sister party. The evening was spent in a series of contests and games. Gifts were presented to members, revealing the name of their mystery sister of the past year and a new drawing took place for the enjoyment of another year. The officers of the society served refreshments of chicken salad and crackers and ice tea to the group.

Here's Phone Firm Asking for Rate Cut

COLUMBUS, Ohio (AP)—In these days of rising prices, the Utilities Commission permitted the Germantown Independent Telephone Co. in southwestern Montgomery County to reduce rates it charges for extension telephones.

The company told the commission that it frankly wants to install more extensions. The old rate was \$2 per month for both business and home extensions. The new rates are \$1.50 for business extensions and \$1 for home extensions.

Miss Dorothy Weidenger and Miss Betty Weidenger have returned to Xenia to resume their teaching in the Dayton public schools, and John Weidenger has resumed his teaching in Middletown schools. They have all recently visited their parents, Mr. and Mrs. George Weidenger and daughter Martha of this community.

## None of Bob Hope's Gags Has Caused His Demise Yet

By CHARLES MERCER

NEW YORK (AP) — Not long ago, when Bob Hope was playing a state fair, he muffed a punch line and yelled, "I don't know what I'm doing!" A local reporter duly wrote in his paper that Bob Hope said he didn't know what he was doing.

Hope, laughing about it as he hastened through New York the other day, said he learned long ago that "you can die with a gag." But Hope, a man with an endless supply of gags, is as far from dying as a comedian can be.

On Sept. 19, for example, he launches his new television season with the musical "Roberta" — which was his first successful Broadway show back in 1933 — over NBC-TV. Anna Maria Alberghetti and Howard Keel costar in the live 90-minute production.

Those who know Otto Harbach's

### Savannah Area Amish Children Enter School

ASHLAND, Ohio (AP)—Nearby Savannah's problem of Amish children truancy ended Tuesday when the youngsters enrolled a week late. A group of 22 reported at Savannah and Adair schools instead of continuing with a plan to hold classes at the home of an Amish farmer until a new parochial school is completed south of Savannah.

and Jerome Kern's "Roberta" only as the source of such songs as "Smoke Gets in Your Eyes" and "The Touch of Your Hands" should be reminded, in Hope's words, that the musical play "is full of laughs."

Hope plays a bandleader named Huckleberry Haines, an American bandleader who goes to Paris and becomes embroiled with girls, gags and harrowing situations. In the course of the show Hope does two monologues — which is more than he usually does on a TV show, he points out.

"Roberta" is the first of eight television shows he plans to do in the forthcoming season. Three will be done on foreign soil — one of them, he plans, from Rio de Janeiro. He hopes to do one domestic show based on the New Orleans Mardi Gras. With the exception of "Roberta," all the Hope shows will be on film under present plans.

Hope seems to have fared better at the hands of the critics than any comedian with much tenure on television. While agreeing that is true, he says that "the kings aren't in style these days."

One reason for his continuing popularity on television, he feels, is the fact that he hasn't been overexposed. For another thing he always tries to work around the talents of his guests and not retain a rigid program formula.

## Ram-Jet Missile Hits 2,600 Mph.

SUNNYVALE, Calif. (AP)—The Air Force has in its ram-jet missile a powerhouse for major aerial defensive weapons capable of doing more than 2,600 m.p.h. The service announced Tuesday that Lockheed's X-7 ram-jet launched recently from a modified B50 plane high over the New Mexico desert flew more than four times the speed of sound. While the speed figure as such wasn't given in the Air Force release, the speed of sound is 660 miles an hour between 40,000 and 100,000 feet altitude.

## No Final 'No' Yet Placed on Piqua A-Plant

WASHINGTON (AP)—The adverse report by scientists on the proposed atomic reactor for Piqua, Ohio, has only delayed negotiations to build one there. Atomic Energy Commission officials said Tuesday.

AEC spokesmen said the commission will wait until the formal report by the Advisory Committee on Reactor Safeguards is made. They said if the plant is built there it will meet every safety standard.

The committee's report, termed tentative pending further discussions in October, said the proposed site at Piqua is not suitable but did not say why.

Sen. Clinton P. Anderson (D-NM), acting chairman of the House-Senate Atomic Energy Committee, said the advisory committee is not objecting to building a plant in Piqua but its concern was the particular site selected. The proposed plant would generate steam for Piqua's municipal electric plant.

Even if the contract is finally signed with the proposed builder, Atomics International, a division of North American Aviation Co., the AEC will order an open hearing for a construction permit.

After the plant is built, another hearing would be held on an operating permit, Anderson said.

# Pirate Strategy Yields 2-Game Sweep over Giants

By THE ASSOCIATED PRESS  
A flash of genius hit Manager Danny Murtaugh, Ted Kluszewski hit the ball and the Pittsburgh Pirates hit the San Francisco Giants for a 4½-game lead in their run for the runner-up spot in the National League.

That's how the Bucs made off with a two-game sweep over the Giants Tuesday night. They won 2-1 on Murtaugh's handy hunch after winning 4-3 in the completion of a game left hanging since July 27 by Pennsylvania's Sunday curfew.

Bill Mazeroski led off the nightcap ninth with a double for the Pirates. Dick Groat drew an intentional walk, and Billy Hall was batting with an 0-1 count when Murtaugh got the flash.

Kluszewski took Hall's place and broke the 1-1 tie with a single.

The Pirates cut Milwaukee's lead to 6½ games, but the Braves reduced their magic number to nine en route to their second straight pennant by beating Cincinnati 3-2. St. Louis beat the Chicago Cubs 8-7. Philadelphia ended its losing string at seven by beating Los Angeles 4-3 after a 6-2 success in the completion of another July 27 game.

Frank Thomas, who had hit a two-run homer for a 3-3 tie before the curfew sounded in Pittsburgh six weeks ago, drove in the winning run with a single as play resumed in the eighth inning.

The Giants tied the regularly scheduled game against rookie George Witt in the sixth on a two-out walk to Willie Mays, who stole second, and Orlando Cepeda's double. Elroy Face (5-2) was the winner, in relief, getting pinch hitter Bill White for the final out with the bases loaded. Gordon Jones (2-1) lost it in relief.

Gene Freese hit a solo homer and Eddie Kasko socked his first grand slam for the Cardinals, who won on Gene Green's double and a single by Irv Noren in the eighth inning. Ernie Banks hit his 45th homer — breaking his own major

## Splendid Splinter Returns, Seeking His 6th Batting Title

CHICAGO (AP) — Aspirants to the American League batting championship — move over. The king is back and from all indications Ted Williams is able and ready to win his sixth title.

Sidelined by a virus attack since Aug. 24, Williams returned to the Boston lineup Tuesday night and

slapped out two hits in a losing 4-1 cause to the Chicago White Sox.

However, he raised his average to .318 and is third in the league behind teammate Pete Runnels with .321 and Bob Cerv of Kansas City with .319.

Under similar circumstances last year, Williams came off the sick bed and put on a tremendous spurt to win the batting championship with a .388 average. That was his fifth. Others came in 1941 (.406), 1942 (.356), 1947 (.343) and 1948 (.369).

Looking thinner and a bit wane, the 40-year-old outfielder sidetracked questions on his chances of winning the batting title this year. He looked a lot better at bat. He clubbed out two of the three hits Boston collected off Chicago's Early Wynn and missed getting still another on a great stop by third baseman Billy Goodman.

"I don't feel as bad as I did last year when I came back but I am a little weak," he said. "I had to sweat it out this time. I had a sore throat and everything else. Those pills they kept feeding me didn't seem to help my strength any."

**Bowlers Reminded On Score Sheets**

Local bowling league officers are reminded to get their bowling sheets to The Circleville Herald the same day or night that games are rolled.

~~~~~  
Early access to the Tally sheets will enable publication in the next day's edition of The Herald.

**Finsterwald Eyed In Denver Open**

DENVER (AP) — The 72-hole Denver Centennial Open golf tournament begins Thursday.

Top money in the \$20,000 event—first major pro tournament here in 10 years — is \$2,800.

The field of 107 shotmakers, 87 pros and 20 amateurs, is led by Dow Finsterwald, PGA champion from Tequesta, Fla., and Arnold Palmer of Latrobe, Pa., the leading money winner with \$39,827 for the year.

~~~~~  
**Crawford, Jones Set for TV Bout**

CHICAGO (AP) — Art student Mickey Crawford, who seems to get more on canvas with a brush than with his fists, faces trial horse Tiger Jones tonight in a 10-round TV welterweight scrap.

Crawford, 24, has climbed to the National Boxing Assn. No. 4 spot among welterweight contenders on a record of 22 victories in 26 bouts. But the Saginaw, Mich., battler, who hopes eventually to have his own art studio, has only two knockouts to his credit.

The Western Association of State Game and Fish Commissioners will hold its annual conference in Portland, Ore., in June 1959. Oregon celebrates its 100th birthday next year, and this conference was set to coincide with the event.

## Rhymer Paces Shoe Pitchers

30 Entries Try For Championship

J. D. Rhymer paced early qualifiers in the horse shoe pitching tournament at the Pickaway County Fairgrounds last night.

Only six pitchers buried for qualification scores, but this number is expected to increase starting tonight. Rhymer's top score was a 90.

The qualifications are based on the throwing of 50 shoes. Tossers pay \$1 to qualify. This fee also includes membership in the Pickaway County Horse Shoe Club.

Bob Wilkinson, second in last year's tournament, qualified with an 81 last night. Frank Sosa and John Moore posted 60's, Paul Rhymer had a 56 and Bob Large registered a 41.

~~~~~  
RAY Goodman, directing the tourney here, said about 30 hurlers are expected to qualify for Saturday night's championship pitchoff. Goodman noted that qualifications are open to hurlers outside of Pickaway County.

Trophies for Class A and Class B competition will be awarded this year. In addition, two sets of pitching shoes will be presented for second and third places in each class. Virgil (Spec) Martin is defending Pickaway County champ. He is expected to be on hand in an effort to retain his title this year.

## Travel Aplenty Scheduled for 8 Ohio Gridders

COLUMBUS, Ohio (AP) — Play football and see the country! That could be the slogan of Ohio's collegiate gridders as they go into the 1958 campaign.

From coast to coast and border to border the Buckeyes will stage invasions as they travel to 15 other states for 49 games. And from 16 states teams will storm into Ohio for 48 contests.

Thus, of the 198 tilts on the slate, 97 are with out-of-state foes and 101 will send Ohio teams against each other.

The season gets under way Saturday with a single game as Bluffton's Beavers entertain Taylor of Indiana. In a Sunday night contest Xavier's Musketeers are hosts to St. Joseph's of the Hoosier State. The drive is launched in earnest Saturday, Sept. 20, with a 16-game spurge.

During the long schedule which winds up with the Miami at Cincinnati Thanksgiving Day contest, the Buckeye squads will appear in 56 night games, 49 Ohio Conference frays, 19 in the Mid-America, 15 in the Mid-Ohio, 14 in the Presidents' Conference, seven in the Big Ten and three in the Missouri Valley.

Invading teams from other states will be Michigan 9, Indiana 8, Kentucky 7, Pennsylvania 5, West Virginia 4, Virginia 3, Texas and Oklahoma 2, and one each from Connecticut, Kansas, Maryland, Washington, New York, Wisconsin, Tennessee and Minnesota.

~~~~~  
**Buckeye Gridders Nursing Bruises**

COLUMBUS, Ohio (AP) — The top two centers on the 1958 Ohio State football team came back into action Tuesday, but two backfield candidates still remained on the sidelines as the result of injuries.

Danny Fronk of Dover and Dan James of Cincinnati were back in action after spending Monday nursing bumps received Saturday. Halfback Tom Matte of Cleveland and fullback John Dresser of Toledo, however, remained on the sidelines.

Action Tuesday again centered around the kicking department as the buckeyes went through punt formations and extra point kicking.

## Veterans Pace Pickaway Attack

Pickaway Twp. High School this year faces the difficult task of defending its county six-man football title with a young team led by three returning varsity players from last year's title squad.

The team again will be coached by Charles Baxter, who will be assisted by Marcus Albright. Baxter said he will use the short punt, single wing and T-spread offenses. His defenses will be a 3-2-1 or a 2-3-1.

## Dallas Itches For 'Big' Team

First Real Move Made Toward wooing Majors

DALLAS (AP) — Dallas has been talking about major league baseball for several years but not until now has a concrete move been made. This one is only in the exploratory stage at that.

The late Dick Burnett, who owned the Dallas club in the Texas League, started the talk as far back as 1948. And in 1954 he offered to put up a quarter of a million dollars and get others to do the same. The others wouldn't come through.

Burnett died in 1955 and there was no further agitation until this year when Fort Worth, a city 30 miles to the west, suggested an alliance with Dallas in obtaining a stadium suitable for major league baseball. It would be built between the two cities and the cost would be borne by revenue bonds on which there would be an election.

Talk turned up all over the place. But backers of the project decided to first feel the pulse of the people through a survey to determine the potential of major league baseball in the area.

~~~~~  
Until that survey is completed—will be nothing done. If the survey is favorable, the stadium project will be launched.

The stadium probably would be located at Arlington, midway between Dallas and Fort Worth.

~~~~~  
Neither Dallas nor Fort Worth has a suitable baseball park for a major league franchise.

Dallas and Fort Worth long have been members of the Texas League, a class AA circuit that has encountered rough sledding in recent years.

~~~~~  
Fort Worth, leading the league, is about even with last year's attendance but that wasn't very good—just 75,188. Dallas drew 123,561 last year but won't make it this season.

~~~~~  
League President Dick Butler attributes the low attendance to the fact that Dallas hadn't until recently been able to get into the first division, plus the fact that major league baseball is brought to the area via television.

~~~~~  
Right now football is the big sport in Dallas and Fort Worth. Dallas wouldn't support pro football though. Fort Worth wouldn't support Dallas' pro football either.

~~~~~  
NEXT: Montreal.

~~~~~  
related his team will be better than average and will be contenders, especially if it can get past its first league opponent, Walnut.

~~~~~  
In the preview, Pickaway will meet first year Saltcreek at 2:15 p. m. Friday and later face another first year competitor, Scioto.

~~~~~

~~~~~  
HEADING the list of returning veterans are Dave Petty, Jerry Anderson and Gail Wolfe. All three are seniors and have three years football under their belts.

~~~~~  
Petty will play halfback and weighs 142 lbs. Anderson, weighs in at 170 and will start at either halfback or end. Wolfe is 180 and will play end.

~~~~~  
Other returning reserves who received letters last year are G. Marion, 178 lb. end, B. Wilson, 125 lb. end, B. Harral, 155 lb. center, and Joe Goeller, 130 lb. quarterback, end and halfback.

~~~~~  
Reporting for first time are R. Dean, 119, quarterback; E. Dean, 167, center or end; L. McKenzie, 126, end; L. Johnson, 106, halfback; P. Bower, 205, center; J. Kneec, 125, end, and Norman Wilson, 135, halfback.

## Steamin' Earns Double-Gaited World Mark

~~~~~  
Steamin' Demon, George Van Camp's popular pacer-turned-trotter, has captured the world's record for double-gaited stallions on a half-mile track.

~~~~~  
Steamin' lowered the world's mark last week at Yonkers Raceway by taking the \$4,500 AA trot in 2:03.3. The 5-year-old bay son of Demon Hanover had a pacing mark of 2:01.3 on a half-mile track last year, adding up to a total of 4:05.1.

~~~~~  
The old standard of Hillcrest Attorney was 4:09. Calumet Evelyn still holds the over-all double-gaited mark on the small track by a single tick at 4:05, trotting in 2:04.1 and pacing in 2:01.3.

~~~~~  
Another Yonkers victory for Steamin' came several days ago when he chalked his seventh win in nine starts this year by winning The Forest Hills, the featured fifth race mile Class AA trot. Veteran Clint Hodgins, subbing for Jimmy Wingfield, was in the sulky.

~~~~~  
In this race, Steamin' was content to stay back of the early pace. The bay horse made his move rounding the turn into the stretch and won moving away by a length and a half.

## Ontario Is Lure of North

By FRANK KUCHIRCHUK  
Central Press Writer-Photographer

The lure of the north country, with all its lakes, rivers and forests, is one of the great pastimes of man. For adventure and fishing fun this type of country is best appreciated by canoeing and camping out.

September and October seem to be the best months in northern Ontario. The fishing, especially for lake trout, walleyes, northerners, and the fighting "muskies," is at its best and, of course, the fall colors are out in their finest.

Supplies can be obtained very readily and the cool weather gives

one the feeling of tip-top health, not to mention the joy of not being bothered by insects.

Easily accessible by highway or

plane from anywhere in the mid-west, it is no wonder more and more Americans head north for their canoeing-fishing trip.

## Tribe Hopes It Again Can Spank Yankees

CLEVELAND (AP) — After thumping the New York Yankees 9-1 before 8,638 fans in a rain-shortened game Tuesday night, the Cleveland Indians try tonight to humble the league leaders again before a "Back the Indians" night crowd at least five times larger.

Don Mossi (7-7) will pitch this final Cleveland-New York game of the year for the Tribe, opposing rookie Zack Monroe, a right-hander whose 3-1 record includes a loss in his only outing against the Indians.

An eight-run outburst—with four of the scores unearned because Tony Kubek dropped a fly in short center field—enabled the Indians to turn the contest into a rout be-

fore rain stopped it with two out in the last of the fifth inning.

In no other single inning this year has Cleveland scored as many runs.

The victory lifted the Indians from sixth into fifth by a single percentage point.

Catcher Russ Nixon was the hitting hero of the 9-2 victory, which went to Hal Woodeshick for hurling a hitless fourth and fifth innings, after relieving Cal McLish. Nixon belted two home runs and a double, driving home four runs.

His first homer, in the third, was the only hit Murray Dickson, 42-year-old former National Leaguer, yielded in the first four innings

Mickey Mantle clouted a 410-foot homer after Tony Kubek had doubled in the third inning to start the scoring. It was the 40th home run for Mantle, whose output is exceeded in the major leagues this season only by the 45 Ernie Banks has hit for Chicago in the National League.

Pilot is the son of Jet Pilot, winner of the 1946 Pimlico futurity and the 1947 Kentucky Derby.

# Democrats Chalk More Gains in Elections Tuesday

By THE ASSOCIATED PRESS

Democrats, turning out in record numbers, posted major voting gains in Tuesday's 10-state primary elections.

The party upsurge stood out particularly in Wisconsin, Minnesota and Utah. It came on the heels of Democratic victories in Maine on Monday.

The strength of the Democratic turnout featured what was otherwise true-to-form voting in the year's last big series of primary contests for Congress and governor.

Hot party contests may have played a big part in getting out the Democratic voters. In Wisconsin, Democrats topped the combined GOP vote for the first time in this century. An unprecedented turnout in the cities, particularly Milwaukee, rolled up the Democratic total. Rural Wisconsin still favored the Republicans.

Utah Democrats displayed unprecedented strength in nominating Frank E. Moss to oppose veteran Republican Sen. Arthur V. Watkins.

And in Minnesota the Democrats rolled up substantially bigger votes than the Republicans in almost all contests. The size of the Democratic turnout poses a threat to the Republican Senate seat held by Edward Thye.

The Democratic nominee to oppose Thye is Rep. Eugene McCarthy, 42-year-old congressman.

Generally, the established political pattern prevailed as Republicans and Democrats tapped their candidates Tuesday in Florida, Vermont, New Hampshire, Massachusetts, Minnesota, Wisconsin, Arizona, Colorado, Utah and Washington.

These were the major results:

1. Sen. Spessard Holland defeated former Sen. Claude Pepper in the 58-year-old liberal's bid for a return to the U.S. Senate in the Florida Democratic primary. Near-complete returns gave Holland, a conservative, a victory margin of more than 80,000 votes. Pepper blamed his defeat on the school segregation issue which found Holland advocating a stronger fight against integration.

2. Gov. Ernest McFarland of Arizona was en route to clearing the first hurdle in his attempt to return to the Senate by rolling up an early 2-1 lead over Democratic National Committeeman Stephen Langmade. McFarland's November opponent would be Republican Sen. Barry Goldwater, the man who ousted him in 1952. Goldwater was renominated without opposition.

3. Two senators — Arthur Watkins (R-Utah) and William Proxmire (D-Wis)—handily beat back intraparty challenges but may be faced with serious trouble in November because of heavy vote totals polled by the opposition parties in their primaries. Watkins will be pitted against Democrat Frank E. Moss and former Gov. J. Bracken Lee, running as an independent. Proxmire, who was named to GOP Sen. Joseph R. McCarthy's seat in a special election last year, will seek a six-year term against Roland E. Steinle, nominated without opposition by the Republicans.

4. Rep. Coya Knutson (D-Minn), the lady legislator who defied her husband's demand that she give up politics and come home, was locked in a tight struggle with Marvin Evenson in Minnesota's 9th Dist.

# New Space Firing Series Is Planned

WASHINGTON (AP)—The newly established National Aeronautics and Space Administration has detailed plans to probe the skies with a whole series of earth satellites.

These are for the year ahead. For the more distant future NASA is already at work on projects to explore the moon and then move on to the planets.

NASA's program plans were disclosed for the first time at a packed-to-capacity dinner meeting of the Institute of the Aeronautical Sciences Tuesday night.

They were outlined by Edgar M. Cortright of the Lewis Flight Propulsion Laboratory at Cleveland, a major unit of the National Advisory Committee for Aeronautics. NACA is in the process of space-age transformation into NASA.

Cortright said he believed that through the NASA programs man would:

1. Be placed in orbit around the earth within two years.
2. Land on the moon and return to earth, within 6 to 10 years.
3. Undertake exploration of Mars, but certainly not for at least 10 to 15 years.

Cortright described 16 space experiments which NASA has ready or can get under way within its first year of operation. Some can be combined, so that the actual

number of launchings required has not been determined.

Seven experiments involve satellites weighing between 10 and 120 pounds, launched into orbits some 30 miles above the earth.

One satellite, used in geodetic measurements, would be equipped with a flashing light so that it could be sighted simultaneously from various tracking stations.

Two satellites would be specially designed to study the earth's cloud cover. Others would investigate aurora, air glow and primary particles which color the early morning skies.

A 100-pound satellite inflating to a diameter of 10 feet, for studies of communications, radar and air density, would be launched before next July. Some of the satellites in this series would carry living organisms — yeast, initially — into space.

Nine of the proposed experiments would involve satellites weighing more than 20 pounds, orbiting at more than 300 miles and serving as stabilized platforms.

# Rittingers Dominate Tractor Pull Event in Long Session

The Rittinger brothers, Charles and Wheeler, were tops in the prize bracket of the Tractor Pulling Contest held at the Pickaway County Fair yesterday. The brothers topped six of a possible 20 places in the time-consuming event.

The contest started at 10:30 a. m. yesterday and lasted until the early hours of this morning. The only relief were breaks for lunch and dinner.

The competition started with the 4,000 lb. tractor class and ended with the tractors carrying 12,000 lbs. The sled started with 11,000 lbs. and ended with approximately 20,000 lbs. being pulled.

In the 4,000 lb. class there were 17 entries. Wayne Patrick, Route 1, took home first prize in this division. He was followed by Wheeler Rittinger, Route 2, Russell McFarland, Route 2, and John Lothes, Newark.

THE 6,000 LB. tractor class pulled 12,000 lbs. and there were 38 entries in this division. Charles Rittinger, Route 2, topped first prize and was followed by Paul Green, Route 1, Orient, Dave Patrick, Kingston, and Wayne Atwood, Williamsport.

As the weights were added on the tractors and the sled the ground began causing difficulty. The tractors were chewing up the turf and making the tractor pull hazardous.

The 8,000 lb. contest or Class C

was won by Clarence Ashbrook, Johnstown. Second was Bruce Dountz, Orient, third was Wheeler Rittinger, and fourth was Howard Wilson, Williamsport. There were 35 entries in this class.

The 10,000 lb. tractor class found the ground almost impassable. Holes three feet and over deep were now confronting drivers and the backing of the tractor to the sled became a most important task.

A total of 26 entries were in this class. It was won by Harold Arledge, Route 2, Williamsport. Following Arledge was W. Rittinger, Dave Hinton, Route 2, Laurelville and William Green, Route 1, Orient.

The final class of the night, which started near midnight was the most interesting and highly competitive of the event. The ground was in such condition that it was all up to the drivers' skill of jockeying his tractor to the right over the holes and his take off.

A TOTAL of 16 entries were in
